Better Earth Selection System

Decorative

Rocky Point's Blackwood Mulch is the ultimate environmental good news story! Made from sustainably sourced timber this striking black mulch, which was once destined for landfill, is now a sustainable, natural way to nourish and protect your garden for up to 12 months.

Blackwood Mulch is ideal for any garden space to insulate against extremes of temperature and suppress weeds while breaking down slowly. It has been coloured with ingredients which are safe for use around plants, children and pets.

Features & Benefits

- Insulates soils against extreme hot or cold temperature
- Coloured with long lasting colours to add a striking edge to your garden
- Colours lasts up to 12 months
- Suppresses weed growth
- Breaks down slowly

How to use

1. Remove all existing weeds from the area to be mulched.
2. If you are using Blackwood Mulch for the first time, you'll need to spread an even layer to a depth of 40-100 mm.
3. If you are re-mulching existing areas, you'll need to spread an even layer to a depth of 20-40 mm.
4. Ensure the mulch does not contact the stems of your plants.
5. Blackwood Mulch is packaged completely dry, so once spread, water in well to improve water retention and wind resistance.
