## Rocky Point- Cypress Mulch

Cypress Mulch is made as a by-product of plantation cypress pine. Natural termite resisting properties make this an ideal addition to gardens close to your home. The natural red-brown colour creates a stunning backdrop in your garden.

Available in 50 L bags

## Cypress Mulch

A natural, safe termite deterrent for mulching close to your home

Available in 50 L bags

### Better Earth Selection System

Decorative

A feast for the senses Rocky Point's Cypress Mulch has a beautiful timber-chip look and a fresh forest aroma.

Used close to your home this eco-friendly mulch will deter termites and suppress weed growth in both ornamental and native gardens.

Often used as a garden feature, Cypress Mulch is perfect for ornamental and native gardens alike.

### Features & Benefits

- Termite deterrent
- Provides a huge saving in watering costs
- Improves soil structure for acid-loving plants
- Insulates against extreme hot or cold temperatures
- Encourages earthworms

### How to use

1. Remove all existing weeds from the area to be mulched.
2. If you are using Cypress Mulch for the first time, you'll need to spread an even layer to a depth of 40-100 mm.
3. If you are re-mulching existing areas, you'll need to spread an even layer to a depth of 20-40 mm.
4. Ensure the mulch does not contact the stems of your plants.
5. Cypress Mulch is packaged completely dry, so once spread, water in well to improve water retention and wind resistance.
